6 Project description

6.1 Abstract

«Abstrakt»

6.2 Scientific background, questions, goals, literature

«Hintergrund»

6.3 Hypotheses

«Hypothese»

6.4 Study design and methods

«Methoden»

6.5 Possible conclusions, relevance of the results for community medicine/pediatrics

«Schlussfolgerungen»

7 Sample material specification

7.1 Exact designation of the subjects / cases for which sample material is requested

«MATProbanden»

7.2 Precise designation of each parameter that is to be determined using the sample material, including the preparation used, pre-analytics and special analytics

«MATParameter»

7.3 Type and amount of the requested material

Selection			Requested Sample Material	Amount	Unit	Reason For The Amount
SHIP	SNiP	GANI_MED				
			EDTA plasma	0		
			citrate plasma	0		
			serum	0		
			erythrocyte suspension	0		
			DNA - ShiP	0		
			urine	0		
			saliva			
			stool			
			DNA			
			DNA - SNiP - Neonat			
			DNA - SNiP - Mother			

7.4 Laboratory resources for sample analysis / proof of technical requirements

«MATRessourcen»

7.5 Special requirements for the sample material

«MATAnforderung»

7.6 What are the costs for IKCL and AG-SNiP?

«Finanzen»

7.7 Are financial resources available in the required amount? From what source?

«FinanzRessourcen»

8 Data specification

Number of selected variables	
Exposition	()
Outcome	()
Sonstige	()

In parentheses is the number of variables that are subject to restrictions in terms of use or for which particular methodological anomalies should be noted.

8.1 Exact designation of the variables that are required:

Further additions to the variables

8.2 Exact description of the subjects for whom data is requested

«[DATProbanden](#)»

8.3 Statistical resources for data usage

«[DATRessourcen](#)»

9 Additional information

9.1 Where should the results be published?

«Publikationen»

9.2 Additional comments from the applicant:

Further comments

The use of data and sample material is directed according to the following rules and arrangements:

- „Regelungen der Medizinischen Fakultät der Ernst-Moritz-Arndt-Universität Greifswald zur Nutzung von Daten und Probenmaterial der Studien „Leben und Gesundheit in Vorpommern“ (SHIP) und „Survey of Neonates in Pomerania“ (SNiP)“ (Rules of the Medical Faculty of the Ernst Moritz Arndt University of Greifswald about use of data and sample material of the studies „Study of Health in Pomerania“ and “Survey of Neonates in Pomerania”)
- Satzung der Medizinischen Fakultät vom 03.07.2012 (Constitution of the Medical Faculty of the Ernst Moritz Arndt University of Greifswald)
